

Main Menu

Our Main Menu has a new look! Your Main Menu screen may appear different depending on your level of access to MTCS. The picture below shows all menu options available to PHAs. New links are available to log-out of MTCS and access help screens. Notice the new Delinquency report, Ad Hoc Individual Access, and Download Data links. Note that MTCS error notifications are now called Transmission reports and are available via the Transmission Information link.

The screenshot displays the 'Multifamily Tenant Characteristics System' Main Menu. At the top, the title 'Multifamily Tenant Characteristics System' is in bold blue text. Below it, 'Main Menu' is centered, followed by a horizontal line and the links '[Logout](#) | [Help](#)'. The main content area is a large yellow rectangle containing a list of menu items in blue text: 'MTCS Reports', 'Delinquency Report', 'Ad Hoc Selection', 'Ad Hoc Individual Access', 'Transmission Information', 'Send File', and 'Download Data'. At the bottom, a grey horizontal bar contains the links '[PIH Home Page](#) | [HUD Homes and Communities Page](#) | [MTCS Home Page](#)'.
